At RØDE we are Passionate about Audio

An exciting opportunity to join a world-class audio company at the forefront of marketing and consumer strategy.

RØDE manufactures and exports precision tools of creativity to the world. Our Australian designed and made microphones are exported to over 140 countries enabling millions of people around the world to be heard. Our employees are passionate, hard working, talented and are pivotal to our success.

What you'll be doing

- Implement front-end components with the Vue.js framework
- Create reusable, effective, and scalable JavaScript code

- Translate the client's technical requirements into code
- Test and update web applications so that they can be used on all web browsers
- Collaborate with a development team to create innovative, attractive and user-friendly websites

What you'll need

- Experience with Laravel framework, using Laravel to create APIs
- Experience with commercial experience
- Experience working with large data sets, and databases
- Experience with VueJS 2/3, Innertia JS is desirable
- Tertiary qualifications in relevant field are desirable but not mandatory
- Flexible attitude and able to work in fast-paced environment
- Ability to work autonomously as part of a small team

Why RØDE?

Our campus is designed to create an atmosphere which reflects our love of cutting edge technology, collaboration, and our deep connection to music, film and all things audio.

Do you want to be part of one of the most exciting, forward thinking companies in Australia?
Then Send your CV and a covering letter explaining why you would like to be the next person to join the RØDE team.

RØDE Microphones values diversity in the workplace and encourages applications from COVID-19 vaccinated people of all genders, ages and backgrounds.
